Brief CV Dr. Navarro qualified in Dentistry at the University of the State of São Paulo in 1989. In 1990 she started a post-graduate course at the Department of Oral Diagnosis and Surgery of the Faculty of Odontology of Piracicaba(UNICAMP). Her Doctor of Philosophy (PhD), was awarded in 1996, when she discussed a thesis on "Effects of A-cyclosporine on fibroblast cultured"
Presently, Dr Navarro is clinical supervisor of the Oral Medicine Service and coordinator of the regional campaign for Oral Cancer Prevention in Araraquara, since 1997.
The main research interests of Dr Navarro are oral cancer and potentially malignant epithelial lesions, in particular the aspects associated to the epidemiology and prevention. Her main clinical interests are the management of medically compromised patients and human exposure to risk factors for oral cancer, including ultraviolet radiation associated to the labial cancer.
